# DRIVING IN THE RAIN

1

## TIME

Give yourself more time for heavy traffic due to rain.

2

## FOLLOWING DISTANCE

Keep a safe following distance between you and the vehicle in front of you.

3

## SPEED LIMIT

Obey the speed limit and drive slower in the rain; the roads are very slick when wet!

4

## LIGHTS

Turn on your headlights when driving in rainy weather.

5

## WINDSCREEN WIPERS

Make sure that the windscreen wipers are in proper working order; change the wiper blades before the rainy season arrives.

6

## READ THE SIGNS

Never drive through moving water if you can't see the ground through it. Do not drive around road barricades; they are there for your safety, the road or bridge may be washed out.

Road Sense is the offspring of courtesy  
and the parent of safety.
